Chancellor

The Easter Sunday Church Service held in the Memorial Hall was, in spite of the severe weather attended by a congregation of about fifty. The service was conducted by Rev. G. Simpson of Tabernacle. Announcement was made that during the coming summer Sunday School will be held every Sunday commencing on the 1st April at 10:30 a.m. in the Sunny Range School.

The past week has been a long list of social gatherings for this community, culminating with a programme party on Saturday, April 2nd, which owing to the extreme cold did not materialise, but instead turned into a surprise party at the store. It is unnecessary to write of the individual success of each party, for it seems that the past has answered that for the future.

On Monday a dance arranged by the ladies was held in the Memorial Hall, followed on Tuesday by a birthday surprise party on Mr. Harry Chaney.

Wednesday night saw the young people at Mr. and Mrs. Cox's and on Thursday night the "Huffie" was held in the Memorial Hall, attention must be made of the enthusiastic support Chancellor received on this occasion by visitors from adjoining districts, especially from Standard Alberta. The weather was severe, with a wild blizzard blowing. Of this expression may be used the visitors continued to arrive until about a quarter past ten. The Hall Committee chairman said that shelter could be provided for all the time.

At the conclusion of supper the members for the Huffie were drawn by two little girls: Miss Mary MacLean and Miss Helen MacLean. The result proved to be a strange coincidence. The horses have been kept during the winter by the kindness of Mr. Tongod and he was hoping to see some day another horse to drive, but it seems this was not to be.

Mr. Carsonwell the school teacher, who is married with Mr. and Mrs. Tongod, had the lucky ticket (No. 205) good held the second. (No. 21)

JUSTICE

Justice how many crimes are committed in my name?

A few days ago in Calgary two young men were set off on suspended sentences for brutally beating and robbing a man in this city.

It was argued that the circumstances were such that the aims of justice would be best served if the future of the young men's lives made nothing of this mild sentence.

Maybe so.

But a day or so later a young girl was sentenced to fifteen months in jail for passing a worthless cheque.

Surely a girl's future life is as

important a consideration as that of

Can it be that immaturity, beside the exact circumstances of the case affects the outcome of our court?

Surely some definite system should standardize the sentences imposed on wrongdoers.

After all, people have a right to a certain change in life as Mother or Dillingham. He's the less

brutal crime, he's the greater punishment.

Continued from front page.

The Mayor expressed himself pretty strongly, following up his reading of this article, that he would not let any government official to travel around with and expose a man's army record as evidence against him in civilian cases. It seemed strange that the Department of Supply and the Royal Engineers should have waited until

Beavis had come down to Strathmore before taking action, as he was accused of being a spy.

He had thought the Department was

for the purpose of recruiting men,

but in this case they seem to want to keep him out of a job.

However, there was nothing for it but to let the Town Policeman go to Calgary, and so he handed back his handcuffs, badge, and other symbols of office, and was taken to Calgary the same evening in custody of Constable Vall.

Major Laubert, answering several

members of the public, said that the process of trial would not be long.

Against Beavis's getting his job back if he was acquitted of the charges against him.

The question of the Legion of

Honor, which Beavis had in his possession was brought up in the meeting.

Boys said that he had received it in 1918.

Strathmore G.W.V.A. have informed

the Legion of Honor that the

cheat, and asked if it is their understanding

that documents can be used as evidence

against him in civil trials.

Boys Arraigned

Boys, who had been before Magistrate Davidson in police court yesterday morning and hearing on four charges of obtaining money under false pretences, was remanded until Monday, when the results of the very auditory hearing, Boys say, was not represented by counsel. He came in on his own behalf and the magistrate said he would not be present in court.

Boys had in the course of

an interview with the coroner for the prosecution.

It is alleged that Boys did at

least one or two thousand dollars

in cash, of which he had no record.

Also that on or about December 21 he attempted to obtain \$25 from the G.W.V.A. to obtain \$25 from the G.W.V.A. and also on or about December 22

he attempted to obtain \$25 from the Army and Navy Veterans Association.

Warning Issued by Income Tax Inspector

—9—

"The Income Tax Act, 1917, as amended provides that every person required to make a return and who fails to do so, or who fails to pay the amount of tax payable, shall be subject to a penalty of 25 per cent. of the amount of tax payable."

This warning paragraph, printed on yellow paper with each line underlined, accompanies the annual income tax forms and is written by Mr. H. Glenister, Inspector of Dominion taxation, is being sent out to all postmasters in Alberta. The notices further state that the onus of recovering the return lies with the inspector, thus leaving entirely to the taxpayer "without any notice or demand by the department."

"It is the aim of the department to administer the Income Tax Act as reasonably as possible," writes Mr. Glenister, in enclosing the forms, and this can only be accomplished by obtaining returns from and assessing all persons who liable to tax."

All unmarried persons, widowers or widows without dependent children whose gross income exceeds \$1000, and all married persons, widows and widowers with dependent children whose gross income exceeds \$2000 are required to make returns.

All incorporated companies whose gross income exceeds \$2000 are required to make returns.

For per cent. will be charged on amounts between \$2000 and \$6000 in the case of unmarried persons or persons without dependents, and on all incomes between \$2000 and \$6000 in the case of all other persons. A tax of eight per cent. is charged on all incomes above \$6000, while a graduated surtax is levied on all incomes exceeding \$5000. The surtax rates run from one per cent. to 65 per cent. Any surtax which is levied on an individual's income will be utilized to pay 65 per cent. of it to the Dominion Government.

Mr. Chas. Falkner returned from Calgary Monday night and states that Mrs. Falkner underwent a double operation in the Hotel Alberta Hospital on Tuesday last. Her friends in the district will be pleased to know that she is recovering nicely.

A Farewell Social Gathering

An event of special interest occurred last week in the Union Church in connection with a social farewell gathering in honor of Mr. and Mrs. D. H. Anderson from Strathmore. A large number of friends from all departments of the church were present and had a very enjoyable time in social chat and games. A very pleasant and happy evening was the presentation of a beautiful set of bread and butter knives and a set of salad forks both of the Adam design, to our honored guests as a token of love and esteem. Mr. McElroy in his address spoke highly of the Andersons and their work in the community, while several others made short speeches, expressing deep regret at the leaving of those friends who had shown such deep interest in the different places of church life. They were all very much. Appropriate refreshments were served, while Mrs. Stockton and Miss Todd prepared tea and coffee from a beautifully decorated table, lighted with candles. The lecture room was attractively arranged and the room The hearty singing of "They're Jolly Good Fellows," "And Land Sape" and "God be With You," brought the evening to a close.

Mr. and Mrs. Leo McDonald were around town yesterday. Mr. McDonald has been here for about fifty-five years, which he carries wonderfully well. He sold his stock and effects by auction Monday, and is going to live in the milder climate of California. He has a son and daughter on a farm at Pitt Meadows. Much we regret to lose our oldest inhabitant, we wish him and Mrs. McDonald every happiness in the future, and hope to be able to congratulate him on his century in the near future.

SCHOOL NOTES

The school piano arrived last week; it is now installed in the share classroom of the old school. It seems satisfactory, the tone is good, the action and case are in first-class condition; children will, I am sure, fully repay all those who contributed. A final statement will be made as soon as all the subscriptions can be collected.

This week 21 students in the High School class will have their physical examinations, nine in grade nine, ten in grade ten, one in grade eleven and one in grade twelve. A High School of this size is a distinct advantage.

The school board have had a room made in the High School, to be used exclusively as a library. Already there are a good many worth-while books on the shelves, and a goodly number of the school books are in the homes of the pupils. I would like to have all these returned to the library at the earliest opportunity so that they may be reconditioned in time for use next year.

Three-quarters of a million of issues have been purchased by the Sun Life Assurance Co. of Canada. The bonds are secured on the elevators and real estate of the Grain Growers, spread over the provinces of Alberta, Saskatchewan and Manitoba. The sum of more than \$200,000,000 is held by these western grain growers who reside in these western provinces and are farmers and grain growers.

Silos and Sunflowers Multiply Farm Profits

Silos and sunflowers promise to revolutionize farming methods in Western Canada. That also on the farm prairie, where the soil has a low capacity of the land is a fact well known to the great majority of thousands of farmers in all parts of the American continent; while practical experiments have been made on farms and experimental stations in various parts of the country. In the United States, for instance, a yield of one acre can be obtained with sunflowers as a ton corn or grain per acre. So far, the best records were the results obtained last year in several agricultural parts of Alberta, Saskatchewan and Manitoba, in growing sunflowers and using them as a silage crop. It was found that a considerable area will be planted to this crop in 1929.

The first successful experimenters in Western Canada was that harvested on the Demonstration Farm of the University of Alberta at Strathmore, Alberta. From about eight acres of land and an average yield of fifteen tons to the acre, Mr. Nobis harvested forty-five to thirty tons of sunflowers to the acre can safely be looked for in irrigated land in Southern Alberta.

Sunflowers were also grown with good results in the same areas where irrigation is not necessary.

At Olds, a yield of thirty tons to the acre was obtained on the farm.

At Castor fourteen tons to the acre was obtained on the farm of Mr. Nobis.

All these places are in Central Alberta, and in the same areas as in a season that was unusually dry.

Given a season with an average rainfall of twenty inches, and a feeding value of 150 to 170 percent, the sunflower is the most valuable crop in Alberta.

Mr. Nobis finds sunflowers a good silage crop, and feeds his cattle on it, and also uses it as a feed for horses filling his silos.

Similar similar results obtained in Central Alberta were harvested in the various parts of Saskatchewan and Manitoba. The Canadian Pacific Railway has shown that the feeding value of sunflowers is equal to that of corn or oats and barley during the past winter. Party of the University of Alberta at Strathmore, Alberta, were successfully rationed on corn, pea and oats, and the animals fed on a diet of two weeks, each cow being given thirty pounds of silage daily. Only

the last seven days of each period were counted in the tests. The results of the cutting of the sunflowers, feeding the cows with more milk, the milk contained a high percentage of fat, and the animals gained more weight than during the periods with the other food.

Tests that are being conducted at the University of Alberta show that while not quite completed, show similar results to those obtained at Strathmore. The same methods are being used in the test, which is being made over several periods of time, with different types of silage. During the three weeks they were given sunflowers, these six cows gave a greater amount of milk than during the previous three weeks when they were given grass. They also showed a slight increase in weight.

Professor G. H. Cutler, head of the Department of Field Husbandry of the University of Alberta has demonstrated that the sunflower is a valuable as a silage crop for the Canadian prairie, and the mammals that eat the variety that he thinks the most satisfactory," says Professor Cutler.

IRRIGATION'S CONTRIBUTION TO

WORLD WELFARE

WHY YOU WILL PREFER THE

STARR

Or things musical are primary consideration in tone. In the violin, in the piano, in the phonograph a pure, clear, ringing tone has long been sought from materials free from harsh qualities, from metallicities, and from unevenness.

Music itself is an art of the ages, and art of life. No other art has a more enabling influence. Music is a part of life itself and to thoroughly appreciate music the tone quality of the medium through which it is presented is of great importance.

The "Starr" is the answer.

Therefore when the Starr Phonograph was made its tone amplifying chamber, the "Shining Throne" was a model of the best in tone control. Since then, the Starr has been improved, refined, and the tone quality of the medium through which it is presented is even more important.

The "Starr" is the answer. The Starr Phonograph because its tone chamber is an entire absence of all nasal, metallic, harsh qualities which heretofore have been associated with the phonograph because of its tone chamber were of tin, cast iron or some vibrationless wood. Each and every tone was sweet, rich and clear and produced the quality of the instrument.

Ammonia industries have sprung up in two sugar factories, five cheese factories, three flour mills, two oil mills, two feed mills and two sulfate mills, one mixed feed mill and two sulfate yards. Fifty-two miles of railroad have been built. The 16,000 head of cattle are fed on 52,000 acres of tame grass, while water for 52,000 acres in addition to supplying all towns, cities and more than 900 farms. The work done has been worth while.

BUY AN IRRIGATED FARM
FROM
THE CANADIAN PACIFIC RAILWAY
BECAUSE—

Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but **every year**.

Irrigation makes possible the raising of culture, all kinds, the kind of fodders which insure good return in dairying and meat raising.

Irrigation means intensive farming and close settlement with all the advantages of a modern agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is unique in that it has been tried having absolutely demonstrated its value and its application is applied.

This is the most liberal offer of irrigated land is to be had. For full particulars, apply to
